SUMMARY

As a driven B.Tech student specializing in Information Technology, I am passionate about the dynamic tech landscape. With **1 year** of internship experience at **DBS Tech India.** I have upskilled my core skills in **Core Java, Servlets, Spring Boot, Angular, Maven, Git.** I have also delivered tools using **JIRA and Agile methodology**. My knowledge extends to **Java, C, Python, Docker, Jenkins, and SQL**. I possess a strong technical foundation and excel in problem-solving. My exceptional analytical skills motivate me to continuously seek growth opportunities, demonstrating my dedication to mastering the ever-evolving field of technology.

SKILLS

Java, SpringBoot, Maven, Git, SQL, Angular, REST API, JavaScript, CI/CD, AWS- Basics

INTERNSHIP EXPERIENCE

Software Engineer Intern
DBS Tech India

Online/Hyderabad
06/2024 - Present

DBS is a leading Financial service which offer banking services.
- Enhanced skills in Core Java, Servlets, Spring Boot, Angular, Maven, and Git through hands-on experience.
- Contributed to projects including an Application Monitoring Tool and a Retrofitting Tool.
- Gained foundational knowledge in the Integrated Payment Engine.

EDUCATION

Bachelor of Technology in Hyderabad
Sreenidhi Institute of Science & Technology, CGPA 9.13/10

2021 - Present

Intermediate
Alphores Junior College, Percent 97.6/100

06/2019 - 03/2021

SSC
Trinity Secondary Model School, CGPA 9.5/10

06/2018 - 04/2019

PROJECTS

Spring Vlogs
11/2023 - 01/2024

https://github.com/d2h5a0r5a0n3/SpringVlogs
Created a Twitter-like app using Java, Spring Boot, MySQL, enabling post, delete, and edit functions. Utilized JSP, CSS, and JavaScript for the front-end. Implemented Jenkins and Docker for CI/CD, and Terraform for infrastructure management. Used Thymeleaf for dynamic content and Maven for dependency management.
- **Technical Skills** : Jenkins,Docker,Terraform,AWS,Springboot, Java,SQL,Git,Maven

Library Management System
02/2024 - 04/2024

https://github.com/d2h5a0r5a0n3/Library-Management-System/
The library management system maintains book details and enables admin database modifications. Admins can also track book lending by making database entries for users, ensuring efficient library management.
- **Technical skills** : Java,MySQL,JDBC,Java Swing UI

TODO List
10/2024 - 11/2024

https://github.com/d2h5a0r5a0n3/Todo-Webapp
Developed a To-Do list app using Spring Boot, JSP, and MySQL, implementing CRUD operations and a user-friendly interface. Utilized Spring Data JPA for scalable database management.

CERTIFICATION

Data Structure And Algorithms Using Java   **Problem Solving**

NPTEL   Hackerrank
